# Press Release

## Excellence in Safety!

Granite State Plumbing & Heating, LLC, a Comfort Systems USA company was presented with three safety awards at the annual presidents meeting for Comfort Systems USA held in Las Vegas this March.

Weare, NH, April, 2008: Granite State Plumbing & Heating, LLC (GSPH) of Weare, NH, was presented three awards for operational safety at the annual presidents meeting for Comfort Systems USA.

Gerry Perron, president, Ken Duchesne, vice president, and Jim Psaledas, safety officer for GSPH, were present to receive the following awards:

- Silver Safety Plaque for achieving 500,000 man hours of work with no loss time injury from October, 2006 through December, 2007. The next award in this category is Gold for a record of 1,000,000 man hours without loss time!
- Premier Safety Award for having an OSHA Incident Rate (OIR) of less than 3.0. GSPH actually had a rating of 2.42 for 2007, which is about 67% less than the national average.
- Safety Index Award for having a sum of less than 10 for 5 individual safety indexes used to assess the overall safety record of an organization. Granite State Plumbing & Heating had a sum of 7.58 for 2007.

In addition to the safety awards, GSPH received an award for its previous involvement in "green" geothermal projects providing heating and cooling for the Huggins Hospital Medical Office Building and the State of New Hampshire National Guard Readiness Center.

Granite State Plumbing & Heating is currently negotiating another design/build project for a new geothermal installation.
